

SPECIAL COMMUNICATION

TO: ALL LIBERTY FAMILY MEMBERS

FROM: JENNIFER SAUNDERS, CEO

DATE: 11/16/2020

SUBJECT: COVID -19

We have been notified that a residential employee that works at our Old Trail home has tested positive for Coronavirus (COVID-19). At this point in time it is not known how the employee contracted the virus. The employee has been out of work since Friday November 6th.

All staff that had substantial direct contact with the COVID positive employee have been contacted and will be receiving a COVID test, they will be restricted to only working at Old Trail and have been advised they should continue to self-monitor for symptoms daily. The individuals that reside at Old Trail will also be tested for COVID by a Liberty nurse and will remain quarantined to their home. The families of individuals that reside at our Old Trail home have been notified as well. Currently the rest of the staff and individuals at our Old Trail home are symptom free.

As we move through the holiday season we will likely see more positive COVID cases within our community. Thankfully this employee followed Liberty's symptom screening policy and has not returned to work since their symptoms presented. I am hopeful, that because of this employee's actions, further exposure to the virus has been avoided. It is my further hope that all Liberty stakeholders will follow COVID precautions during the holiday season including self-monitoring for symptoms, receiving timely COVID testing, and isolating until test results are received, to ensure the safety of others.

We are carefully monitoring the situation and are committed to sharing updates with you as they occur. We greatly appreciate your support of our staff as they work to ensure the continued health of your loved ones.

Jennifer Saunders, CEO
