

CREATIVE EXPRESSIONS ART SHOW

ENTRY EXPECTATIONS

 Please make sure all artwork is presented in a professional manner.

 All received 2-D artwork must be framed or otherwise appropriately mounted and ready to hang with a hanger on the back for its presentation. A wire across the back is preferred over a saw tooth hanger.

 If 3-D work requires a separate display device such as an easel, please include the appropriate device with the work. If a pedestal is required, please let us know.

 Each piece should have the identification label affixed to the back.

 Information about the piece, the ARC Chapter, and if it is for sale or not should be placed on the back left corner of the piece.

A note about proper framing

Proper framing can significantly elevate a piece and make it stand out among the rest. This involves a good quality frame, secure wire on the back for hanging, secure system for holding the work in the frame and a mat and/or glass, if appropriate for the piece. Please avoid plastic frames, keyhole hanging systems and thin paper "mats."

Thank you so much for professionally presenting your show pieces. We are looking forward to an incredible show!
